## Provider

CorVpoint STUDIO is an offering by Sylvain Sébastien Amiet.

Le Centre 29  
1784 Courtepin  
Switzerland

## Legal form

Sole proprietorship / self-employed activity under Swiss law.

Note: a commercial register entry, UID number or VAT number will only be shown on this website if such details actually exist.

## Contact

Email: [info@corvpoint.ch](mailto:info@corvpoint.ch)

## Legal scope

This website provides information about CorVpoint STUDIO, its services, working methods and contact options.

Unless expressly stated otherwise, the content published on this website does not constitute a legally binding offer. Only individually prepared quotations, written agreements, contracts and expressly confirmed scopes of service are binding.

## Services and communication

CorVpoint STUDIO provides services in particular in the areas of software development, web development, automation, digital solutions, technical conception, consulting and related individual project services.

Enquiries, preliminary discussions, project descriptions, requests for quotations and other communications by email, contact forms, video communication, messaging services or other electronic communication channels do not automatically constitute acceptance of a contract, a commitment or the

start of a mandate.

A contractual relationship generally arises only when the scope, terms and acceptance of a service have been expressly confirmed or agreed in writing.

## **International communication and services**

CorVpoint STUDIO may also communicate or work on projects with customers, interested parties, companies or contacts outside Switzerland.

Such contacts, preliminary clarifications, digital exchanges or cross-border project discussions do not in themselves create a fixed contractual relationship, an obligation to perform services or the applicability of any particular foreign law.

The specifically agreed contractual arrangements remain decisive and, unless otherwise agreed in writing, Swiss law applies.

## **Liability notice**

The content of this website has been prepared with care. Nevertheless, no warranty is given for the accuracy, completeness, timeliness, technical error-free nature or constant availability of the information provided.

To the extent permitted by law, CorVpoint STUDIO is not liable for direct or indirect damage, consequential damage, data loss, loss of profit, system interruptions or other disadvantages that may arise from accessing this website, using it, technical disruptions or relying on published content.

This also applies to content on external websites, platforms or services that are referenced directly or indirectly.

## **External links**

This website may contain links to external third-party websites. No responsibility is accepted for their content, availability, privacy practices, technical security or legality.

The respective operators are solely responsible for the content of linked pages.

## **Privacy**

Personal data is processed with the care required under Swiss data protection law.

Further information on the processing of personal data, any contact forms, communication data, technically necessary access data and the rights of data subjects may be set out in a separate privacy

policy.

Where forms, email contacts or other communication channels are used on this website, users transmit information at their own responsibility. Fully confidential or uninterrupted data security in electronic communication cannot be guaranteed.

## **Confidentiality of electronic communication**

Communication by email or via other electronic channels may involve technical security gaps. Unless expressly agreed otherwise, electronic contact is made at the user's own risk.

Confidential, sensitive or legally particularly relevant documents should only be submitted via the transmission channel expressly designated and considered suitable in each case.

## **Copyright**

The content of this website, in particular texts, concepts, structures, brand elements, logos, graphics, layouts, design elements, downloads and other elements, is protected by copyright and, where applicable, by other rights unless stated otherwise.

Any use, reproduction, editing, distribution, publication, storage or forwarding beyond the limits permitted by law requires prior written consent.

## **Trademarks and identifiers**

Where names, logos, signs, project names or other identifiers are used on this website, they may be protected in favour of CorVpoint STUDIO or third parties.

No licence, right of use or other permission can be derived from mere publication on this website.

## **Applicable law**

To the extent permitted by law, use of this website and any disputes arising from it are governed by the substantive law of Switzerland.

Mandatory statutory protective provisions, in particular in favour of consumers or due to mandatorily applicable foreign provisions, remain reserved.

## **Place of jurisdiction**

To the extent permitted by law and unless mandatory statutory provisions provide otherwise, the place of jurisdiction is the provider's registered office or domicile in Switzerland.

Only individually agreed offers, contracts and written confirmations are binding.

## **Offers, digital approvals and project start**

An enquiry, project briefing, upload, appointment arrangement or technical pre-check does not itself create a mandate. Services become binding only through an individually confirmed offer, written or electronically documented acceptance, portal approval, agreed contract or express confirmation.

Project start, delivery and productive activation may depend on client verification, complete information, agreed approvals and due deposits or milestone payments.

## **Electronic communication and signatures**

Digital acceptances, email confirmations, portal approvals or simple electronic signatures may be used to document a business process where agreed. Where mandatory law requires a specific form or qualified signature procedure, suitable procedures under Swiss ZertES, EU/eIDAS or an individually agreed method remain reserved.
